Projects

Personal Website

📅 Winter 2025 🛠 HTML, 🎨 CSS, 📄 JS
Completely open source!

Solo Baila

📅 Autumn 2024 🐍 Python, JSON
A completely open-source re-imagining of the popular game "Just Dance", but with a DNN trained for pose recognition.

SE Internship Abilium

📅 Spring 2025 🐍 Python, Odoo, Raspberry
Module for room reservation connected to raspberrys with e-ink displays.

... and many other small projects

EDUCATION

📅 2022 - 2026 Bachelor's in Computer Science
📍 University of Bern, Switzerland

- Graduated with Insigni cum laude honors in early 2026.
- Finished top of class Rechnerarchitektur 2024 (Processor Architecture).
- Assisted four lectures so far. (CG, GTI, DB and RA)
- Top 6 amongst students who competed for University's competitive coding team for SWERC 2024.
- Represented University of Bern at SWERC25 coding competition.

📅 2026 - 2028 (expected) Master's in Computer Science
📍 ETH Zurich, Switzerland

PROFESSIONAL EXPERIENCE

📅 February 2024 - June 2024 Databases
📍 University of Bern, Switzerland *Lecture Assistant*

I set up and maintained the database server for the exercises. I led exercise sessions and corrected assignments before and after the sessions. I supervised exams and graded them. Additionally, I provided tutorial support for the lecture and managed the discussion forum.

📅 February 2024 - June 2024 Computer Architecture
📍 University of Bern, Switzerland *Lecture Assistant*

I worked as a teaching assistant for computer architecture. I lead plenary sessions and graded assignments. I provided tutorial support for the lecture and managed the discussion forum. Additionally, I assembled and maintained breadboards, set up and managed Raspberry Pi devices, and offered technical support for both.

📅 September 2024 - January 2025 Fundamentals Of Technical Informatics
📍 University of Bern, Switzerland *Lecture Assistant*

I lead exercise sessions and reviewed assignments before and after the sessions. I supervised exams and graded them. Additionally, I provided tutorial support for the lecture and managed the discussion forum.

📅 February 2025 - June 2025 Software Engineering
📍 Abilium, Switzerland *Internship*

I completed a university-organized internship in software engineering with Abilium this spring. As a small team we developed a custom Odoo plugin which communicates with Raspberries to display reservation information.

📅 September 2025 - February 2026 Computergraphics
📍 University of Bern, Switzerland *Lecture Assistant*

I lead pool sessions for technical questions regarding raytracing and rasterization, and reviewed assignments before and after the sessions. I supervised exams and graded them. I provided tutorial support for the lecture and managed the discussion forum.
